The Birth of the Book

The Imperial Beach Library is pleased to host a special lecture on **Wednesday, January 16th at 6:30 p.m.** This presentation is also sponsored by the Imperial Beach Philosophical Society.

John Sieber, D.D. will present a most informative lecture on ***The Birth of the Book***. Mr. Sieber gives us a hint about this lecture:

"Books have pages, bound in the middle, that you can turn. They were a new invention in the 4th century, a great improvement from tablets and scrolls." Professor Sieber was privileged to work with some the earliest books that have been preserved and will tell the story of how they were made.
